

L'HÉRITIER - GUYOT

AMAZING ATTRIBUTES

Black currants naturally contain an extraordinarily high amount of vitamin C; seven times that found in oranges and roughly 20 times that found in pomegranates. Cassis berries are also rich in vitamins B, E and a broad range of other essential nutrients and antioxidants. One specific antioxidant present in high levels is polyphenol with double the amount found in blueberries.

Kir Royale

1 oz. L'Heritier-Guyot Crème de Cassis
5 oz. Domaine Carneros Brut or other dry sparkling wine

Kir

1 oz. L'Heritier-Guyot
